CORPORATE OVERVIEW

Atlas Horizon Group is a commercial off-the-shelf (COTS) value-added reseller and open-market procurement specialist. We provide prime contractors and federal defense agencies with rapid-response sourcing for industrial hardware, MRO supplies, tools, fasteners, and safety equipment. We take on the line items that are too small or too awkward for a large distributor to chase, and we say plainly where a requirement falls outside what we can compliantly supply.

CORE CAPABILITIES

Fasteners & Hardware (FSG 53)
Mil-spec bolts, rivets, screws, washers, and specialized defense fittings.

Safety & Tactical (FSG 42 / 84)
Industrial PPE, respirators, protective eyewear, and tactical gear.

Hand & Power Tools (FSG 51)
Industrial-grade maintenance tooling, torque systems, and kit integration.

Multi-Line BOM Sourcing
Single point of contact for complex multi-vendor Bills of Materials.

KEY DIFFERENTIATORS

Fast Firm Pricing
Distributor queries return competitive firm pricing in 24-72 hours.

Documentation On Request
Certificates of Conformance (CoC), traceability records, and FAR/DFARS compliance flow-downs where your order calls for them.

Vendor Consolidation
Simplifies prime vendor lists by sourcing across COTS suppliers through one contact.

CORPORATE IDENTIFIERS

Entity structure	Limited Liability Company (Wyoming)
SAM.gov status	Registration in progress
Unique Entity ID (UEI)	EZ2EB7L7ENM2
NCAGE code	NCAGE pending: requested from NSPA

Zero gray market policy: Atlas Horizon Group follows anti-counterfeit practices consistent with DFARS 252.246-7007 / 7008. Our policy is to buy through authorized OEM distributors or directly from manufacturers, and not from open broker listings. Where a requirement carries a country-of-origin or domestic-content condition, we confirm in writing how it is met before award.
